

ANGLR B.V.

BBQ boat is a double-row seat, the front row is made up of two people pedaling, and the rear row is comfortably enjoyed by two people. The bottom of the boat is designed with double buoys and has excellent wind and wave resistance. It can run stably in the offshore, in rivers and lakes will be more stable. Besides, the biggest advantage of this marine propeller is that it uses battery as power, saves trouble, is simple, environmentally friendly, and has less noise. It is a good helper for fishing enthusiasts.
