

ANGLR BOATS

The basic information	Over size	11.5M*4.1M*5.4M		
	Body size	8.0M*3.6M*5.4M		
	Number of pontoon	3		
	The layer number	2		
Category	Name	Pics	Details	Note
Pontoon and The main frame	The Pontoon		5 series aluminum alloy pontoon, thickness 4MM, diameter 900MM	3
	Frame		Aluminium alloy frame	
	Body		Aluminum alloy frame double layer aluminum composite panel, sandwich insulation	The color is white Or gray
	4 step ladder		4 step ladder	
	The Deck		The exterior Checker plate is non-skid	Color optional
	The floor		Wood or flooring leather	Color optional
	Second Floor awning		Aluminium alloy frame	
	Door		Glass doors, security doors, sliding doors, etc	The engineer decides according
	Windows		French window, push-pull window	The engineer decides according
	Mesh and curtain		Mesh and curtain	

Lighting system	Indoor lighting		Ceiling and spotlights	Light source adjustable
	External light		Lights, pilot lights, navigation lights, atmosphere lights, etc	
The electric system	The battery		4*200Ah lead crystal deep circulation battery	
	Inverter		Inverter 6000 w	
	Dc charger		Dc charger	
	Solar panel		12V 1500W	Depending on the size of the roof
	Main control panel		Various indicator panels	
	The socket		Socket, USB port, cigarette lighter	According to the actual situation distribution
The water system	Water pump		Water pump	
	Fresh water tank		250L with water filler and indicator	Specific still ask engineer to decide
	Grey water tank		170L with water filler and indicator	Specific still ask engineer to decide
	The black water tank		80L with water filler and indicator	Specific still ask engineer to decide
Entertainment system	The stereo		8-10 distribution	Waterproof
	TV		27-Inch television
